

ACCESSORIES/SPARES

Pylon offers an external PMT which is required to use some of the Model AB-5 monitor optional detectors.

The Ext PMT connects to a BNC connector on the back panel of the AB-5 or AB-5R monitor via a coaxial cable to provide a portable PMT. This allows the use of detectors that can be positioned closer to the measurement point or more sensitive detectors that cannot be connected directly to the AB-5 monitor due to the size of the detector.

Detectors requiring the Model Ext PMT include the Model TEL Trace Environmental Level Detector, the Model SA/SB/SAB Surface Contamination Probes, and the Model GB Gamma/Beta Probe.

Specifications:

Operating Temperature Range:	0 to +50 (+32 to +122) °C (°F)
Storage Temperature Range:	-20 to +75 (-4 to +167) °C (°F)
Relative Humidity Range:	0 to 90 %
Diameter:	4.9 (1.9) cm (in.)
Height:	20.3 (8) cm (in.)
Weight:	343 (0.76) g (lb.)

- Values are nominal.
